

Start a new journey, help shape the future with Temple

Temple is one of the UK's leading independent infrastructure and property consultancies, specialising in environment, planning and sustainability.

With a team comprising of some of the most talented people in the industry, we particularly enjoy working on the most exciting and complex projects, where clients can leverage the full value of our insight and commitment. Our current project portfolio includes Environmental Impact Assessments (EIA) and other support for HS2, Crossrail 2, iconic property developments and large regeneration programmes, as well as supporting the construction of Crossrail, London Overground, the Northern Line Extension and Thames Tideway Tunnel. We also carry out a wide range of bespoke planning and environmental assignments.

Job Titles: Principal/Senior Consultant EIA Infrastructure

Salary: Senior Consultants - £35,000+ pa. Principal Consultants - £45,000+ pa.

Location: Central London

Terms of employment: Full time permanent

About the role

We are seeking an experienced EIA practitioner to play a management role in infrastructure projects and bidding, primarily transport infrastructure.

Client care is at the heart of the role, which will require you to achieving a balance between delivering projects and developing new opportunities. Your role in project delivery may be as project director, project manager, framework manager and/or technical lead. In business development you will spend some of your time pursuing long term higher value stand-alone projects, framework opportunities and key accounts. You will also lead or contribute to bids for projects of all scales. You will be comfortable introducing a range of relevant Temple propositions including infrastructure route appraisal, Environmental Impact Assessments, pre-planning or construction environmental monitoring/management.

You will use and actively develop a network of contacts in client organisations (e.g. transport project promoters and contractors), strategic partners and other collaborators to win and deliver work.

What we're looking for?

The successful candidate will have:

- A track record of delivering successfully to clients in transport infrastructure
- An active network of contacts in transport infrastructure
- Specialism in one or more of the traditional EIA disciplines, planning or sustainability
- Project management and people management experience
- Bid preparation and business development experience
- Confidence, excellent communication skills, and be client focussed
- Energy and enthusiasm, with attention to detail and a creative approach to problem solving.

It will be an advantage if you have:

- Project management qualifications
- Experience of work on major non-transport projects and programmes
- Experience in EIA for property development
- Experience developing and implementing environmental management plans/COCs (or equivalent) to support scheme delivery
- Commercial awareness and familiarity with managing budgets as part of project delivery.
- Excellent report writing and communication skills.

Temple provides a wide range of training to its staff including in house workshops run by our experienced team; seminars and presentations from relevant industry professionals in a wide range of environmental and sustainability disciplines and external project management training.

Please send a covering letter and full CV to recruitment@templegroup.co.uk clearly identifying the position/grade you are applying for and where you saw this opportunity advertised.
