

Start a new journey, help shape the future with Temple

Temple is one of the UK's leading independent property and infrastructure consultancies, specialising in planning, environment and sustainability. At Temple, we enjoy all the advantages of working within a personable and agile SME, at the same time as playing leading roles on some of the biggest projects going, across both the infrastructure and property sectors, such as High Speed 2 and Barking Riverside.

The experience and attitude of our staff is what sets us apart, and we are looking for someone to help us retain that market differentiator.

Job Title: Principal Consultant / Technical Director – Social and Environmental Economics

Salary: Competitive

Location: Central Manchester

Terms of employment: Full time permanent

About the role:

We are looking for an experienced consultant to help us build upon recent successes and to lead us into new areas of work within this service sector. You may have a specialism in environmental economics, social value and social return on investment engagement, project appraisal and funding, and or community engagement / stakeholder consultation. You may work in the property sector or within major infrastructure, or across both.

Whatever the flavour of your experience is, we are looking for you to take a lead in developing propositions with established networks within your specialist area.

What we're looking for?

We are seeking an enthusiastic and motivated consultant who will be part of our communities and sustainability team which currently has a focus on socio-economic and health impact assessment as well as wider strategic consulting around social infrastructure, social value and environmental economics.

The successful candidate will:

- Have an extensive working foundation in the fields of one or more of the following:
 - social infrastructure appraisal and delivery;
 - economic development (e.g. economic appraisal/modelling, economic impact assessment and the use of financial or business case modelling techniques);
 - environmental economics; and / or
 - stakeholder engagement.
- Have a demonstrable track record in bespoke strategy development for high profile clients (public and private), delivering tangible results.
- Understand the challenges facing urban environments and the value of providing an integrated offer including economics, planning and technical infrastructure expertise.
- Contribute to the activities of the wider team, by directing and managing the delivery of socio-economic and health impact assessments.
- Be prepared to promote Temple's services through publications and conference attendance, and to contribute to industry debate both internally and within wider professional circles.
- Have demonstrable bid preparation and business development experience – be a proven work winner.
- Be a member of an appropriate institute such as the Institute of Environmental Management & Assessment (IEMA) and / or the Institute of Economic Development.

Please send a covering letter and full CV to recruitment@templegroup.co.uk clearly identifying the position/grade you are applying for and where you saw this opportunity advertised.
