

Realise your ambitions, discover what's possible with Temple

Temple is one of the UK's leading independent infrastructure and property consultancies, specialising in environment, planning and sustainability.

With a team comprising of some of the most talented people in the industry, we particularly enjoy working on the most exciting and complex projects, where clients can leverage the full value of our insight and commitment. Our current project portfolio includes Environmental Impact Assessments (EIA) and other support for HS2, Crossrail 2, iconic property developments and large regeneration programmes, as well as supporting the construction of Crossrail, London Overground, the Northern Line Extension and Thames Tideway Tunnel. We also carry out a wide range of bespoke planning and environmental assignments – everything from air quality monitoring, Environmental Statement reviews, and health/equalities impact assessments, through to expert witness support in relation to aviation noise.

About our planning services:

We provide a range of town planning services to deliver major development and infrastructure projects through a combination of:

- Technical skills and experience in town planning, together with a commitment to the highest professional standards;
- Ensuring that we bring to bear both our public and private sector experience in delivering regeneration;
- Ensuring that risks and opportunities are fully captured, managed and communicated effectively from the outset; and
- Working in an integrated way with our clients and partners, ensuring we create value for them at every stage of a project.

We have been successful in expanding our business by securing a number of new projects within the private and public sectors, particularly in housing, mixed use and integrated transport schemes and we are looking to build on this success.

We work with our Clients to deliver best value in their development schemes while also advising on their sustainability and how that helps achieve wider corporate benefits.
