

**Job Title:** Senior or Principal Consultant – Geospatial Developer  
**Salary:** Senior £32,000+ | Principal £42,000+ (Plus London weighting)  
**Location:** Central London preferred or Manchester  
**Role Type:** Full-Time Permanent

## OVERVIEW

Temple is one of the UK's leading independent infrastructure and property consultancies, specialising in environment, planning and sustainability. We believe in putting communities and the environment at the heart of decision-making.

With a dynamic team comprising of some of the most talented people in the industry, we work on exciting and complex projects where clients can leverage the full value of our insight and commitment.

Our current work portfolio includes: technical support to clients in the private and public sectors, at local and national levels and in the UK and overseas; Environmental Impact Assessments (EIA) and other support for HS2, Crossrail 2, iconic property developments and large regeneration schemes; support to construction activities, including the London Underground Northern Line Extension, HS2 and Thames Tideway Tunnel; a wide range of bespoke planning and environmental assessments – everything from air quality monitoring and Environmental Statement reviews, through to expert witness support in relation to aviation noise.

Our cutting-edge offer is underpinned by effective use of data and leveraging technology to create innovation and value for money. We are seeking a Senior or Principal Consultant to join our Digital Delivery team as a lead developer to create solutions for our clients and maintain an efficient internal GIS Enterprise infrastructure. The role requires someone with creativity and a thirst for innovation, whilst understanding the digital landscape and clients' needs.

The successful candidate will be equally comfortable identifying and presenting solutions to clients, as they are designing and developing the solution. You will work closely with the Digital Delivery team lead and Project Managers within the business to identify opportunities and create web and mobile solutions that maximise the effective use of data for project coordination and delivery.

***If you are interested in this role, please send a covering letter setting out what you are passionate about and what you can bring to Temple, stating your current salary and the role/position/grade you are applying for, to [recruitment@templegroup.co.uk](mailto:recruitment@templegroup.co.uk). Please also attach a copy of your latest full CV***

## The Role: -

The Senior or Principal Consultant will report to the Digital Delivery team lead and work closely with all internal teams. They will manage and maintain our Enterprise GIS system and perform web and mobile application development using the ESRI ArcGIS platform. This will include providing support, troubleshooting, making modifications and enhancements, and maintaining existing GIS applications, scripts, tools and web services.

The successful candidate will also be expected to create and maintain system-related documentation and training guides. They must be able to demonstrate an ability to work with clients, understanding their needs, and translate these into presentable solutions.

Responsibilities will include driving and enhancing Temple's digital offer through identifying and pursuing new opportunities. The successful candidate will have to be comfortable applying their knowledge to new situations and developing their skills to address future challenges and the digital needs of the business.

The Senior or Principal Consultant will be expected to work with the rest of the Digital Delivery Team to provide a holistic digital service to the wider business.

An understanding of, and previous experience working in environment, ecology, infrastructure, and/ or built environment disciplines would be considered beneficial to candidates.

## The Candidate: -

We expect the successful candidate will:

- have a strong background working with GIS as well as strong commercial experience working in Geospatial Development;
- have demonstrable skills in the delivering of end-user visualization solutions using a wide range of ESRI technologies, including ArcGIS Desktop, ArcGIS Pro, ArcGIS Online, and full stack of ArcGIS Enterprise 10.9 - Data Store, ArcGIS Server, Portal for ArcGIS, and Web Adaptor;
- be experienced with publishing and managing geospatial content using ESRI products;
- be experienced in development of web mapping apps using ESRI app builders and templates;
- be experienced in the development of mobile apps using Survey123 and ArcGIS Field Maps;
- have experience in installation, configuration, and administration of SQL Server;
- have working knowledge of HTML5, CSS, JavaScript, and Python;
- be experienced in using production and development servers;
- be comfortable presenting Proof-of-Concept demonstrations and recommended solutions to senior management;
- be degree educated.

Experience of any of the following would be useful:

- Workforce for ArcGIS
- C#
- CityEngine
- Unreal or Unity development

Temple provides a wide range of training to its staff including in house workshops run by our experienced team; seminars and presentations from relevant industry professionals in a wide range of environmental, town planning and sustainability disciplines and external project management training.
